Arrange your tasks in order of importance.

Concentrate: Focus on one thing at a time.

**Delegate:**  
Ask someone else to do a task.

**Schedule:**  
Decide when something needs to get done and arrange it for that time.

3. \* It's 8:00 a.m. How would you schedule these errands for maximum efficiency? Include times. Why would you schedule it this way?

\* Suggested answer: leave home at 9 to work out from 9:30-10:30, put gas in the car and wash it 11:00-11:20, pick up library book from 11:30-11:35, meet friend at noon. Working backward from noon, since that's the only fixed time, and working out before eating lunch rather than after, start at the gym and work your way around in a circle.
