YOUR WORKS-CITED LIST	**Your works-cited list should appear at the end of your essay. It provides the information necessary for a reader to locate and retrieve any source you cite in the essay. Each source you cite in the essay must appear in your works-cited list; likewise, each entry in the works-cited list must be cited in the text.**

According to the *Modern Language Association Handbook for Writers of Research Papers, 8th edition*:

{1} Double-space all entries.

{2} Begin the first line of an entry flush with the left margin, and indent lines that follow by one-half inch.

{3} List entries in alphabetical order by the author's last name. If you are listing more than one work by the same author, alphabetize the works according to title. Instead of repeating the author's name, type three hyphens followed by a period, and then give the title.

{4} Italicize the titles of works published independently. Books, plays, long poems, pamphlets, periodicals and films are all published independently.

{5} If the title of a book you are citing includes the title of another book, italicize the main title but not the other title.

{6} Use quotation marks to indicate titles of short works included in larger works, song titles and titles of unpublished works.

{7} Separate the author, title, and publication information with a period followed by one space.

{8} Use lowercase abbreviations to identify parts of a work (for example, vol. for volume), a named translator (trans.), and a named editor (ed.). However, when these designations follow a period, the first letter should be capitalized.

{9} Use the shortened forms for the publisher's name. When the publisher's name includes the name of a person, cite the last name alone. When the publi[illegible] the first of these names.

{10} Use the phrase, "Accessed [illegible] the abo[illegible]
